

Gerry Dragomir

Gerry began competing internationally in 1999 at the WMA Championships in Gateshead, GB. Despite some very difficult conditions Gerry managed a 10th place finish in the 20km Race Walk event and was inspired to get to the podium in a future event.

2001 saw an improved 6th place finish at the WMA Championships in Brisbane, AU. In 2005 at the WMA Championships in San Sebastian Spain Gerry was finally able to put it all together and stand atop the podium with a 3rd place finish in the 5,000m Race Walk.

The next WMA Championships in 2007 in Riccione, IT were a minor disappointment when Gerry slipped from 4th place to a tie for 6th place over the final 500m of the 20km Race Walk event.

The 2010 WMA Indoor Championships in Kamloops, CA were to be Gerry's best achievement to date. After finishing 2nd and nearly getting DQ'd due to a very soft track in the indoor 3,000m Race Walk, Gerry came out incredibly strong in the 10km Race Walk 2 days later. After a conservative start Gerry picked up the pace on every lap to post a Canadian Masters Record 52:31 time and finish 1st in his age group, several minutes ahead of his closest rival.
